National Geographic Society. Hardback. Book Condition: new. BRAND NEW, In the Womb: Witness the Journey from Conception to Birth Through Incredible 3D Imaging, Peter Tallack, Imagine being able to observe with astonishing clarity a child's delicate features as they evolve over the course of a pregnancy, or witness the complex behavior of new human life in utero. Now we can, thanks to the advent of innovative 3D and 4D imaging technologies that provide a powerful diagnostic tool for doctors and cast vivid light on our earliest development--and a profound new way for parents to bond with their babies on a deeper emotional level. Combining more than 140 images of life-like models based on the latest science, computer-generated illustrations, and 3D ultrasound images with an uplifting, informative text, "In the Womb" is a week-by-week chronicle of the mysterious, magical progress from embryo to fetus to full-term infant. Each spread features a central image and information about that particular stage as well as brief commentary explaining what we know and how we know it. For example, at 24 weeks we watch a fetus open and close her eyes, display facial expressions resembling a grimace and a frown, and stick out her tongue...
