BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 36 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Pursuant to a congressional request, GAO summarized issues relating to the federal government's role in international trade, focusing on: (1) enhancing U. S. competitiveness in an interdependent world; (2) promoting U. S. exports; (3) managing the Department of Agriculture's (USDA) export programs; (4) negotiating and administering trade agreements; and (5) analyzing national security-related foreign investments. GAO noted that: (1) international trade has become an increasingly critical part of the U. S. economy, although many believe that the United States is losing ground in global competition; (2) the Department of Commerce and USDA have addressed some organizational and management problems in their export promotion programs, but there is still a need for a comprehensive, government-wide strategy for those programs, which are spread among several agencies; (3) although multilateral trade negotiations which could enhance U. S. exports have not been completed, the United States has successfully advanced some bilateral trade agreements; and (4) the federal government needs to enhance its procedures for monitoring and analyzing proposed foreign investments in U. S. firms conducting national security-related work. This item ships from La Vergne, TN. Paperback.
