Elsevier Health Sciences, United Kingdom, 2008. Paperback. Book Condition: New. 2nd Revised edition. 183 x 127 mm. Language: English . Brand New Book. The new edition of Dosage Calculations for Veterinary Nurses and Technicians continues to explain common mathematical principles in veterinary terms. With the introduction of the Evolve platform, both student and qualified nurses or technicians benefit from an interactive site where they can test their knowledge with interactive questions and quizzes; while instructors can create their own quizzes and tasks to use as aids in their teaching. Drawing upon his extensive experience, Terry Lake also provides a method of conversion that simplifies equations and removes the necessity of memorizing formulae. Terry Lake is also joined in this second edition by Nicola Green, an experienced instructor in dosage calculations who has devised the Evolve component. The text uses a common-sense approach to clinical situations faced by every student and qualified practitioner, highlighting common errors and providing tips for avoiding potential pitfalls. This extremely useful text takes the student from the secure ground of decimals and percentages, through to the uncharted terrain of statistics and dimensional analysis all in an easily accessible and user-friendly style. This book remains an indispensable companion for all who administer medication to animals.
