Liverpool; to the Low Water Basin at Birkenhead, and an account of extensive sluicing operations for scouring and maintaining the basin at its proper depth; to the Lagoons and Marshes on certain parts of the Shores of the Mediterranean, and the works projected and partly executed for draining them; to the mechanical details of construction of Lighthouse Apparatus and Lanterns; to the Eoman Eock Lighthouse, Simons Bay, Cape of Good Hope; to the Standards of Comparison employed in testing the Illuminating Power of Coal-gas; and lastly, to an able summary, by a foreign engineer, of the present state of knowledge as to the theory of the Strength and Eesistance of Materials of Construction.
