In this book I set out several new sciences relevant to mankind. All of these sciences can be directly applied by yourself for your benefit. They make predictions about the consequences of your actions and are testable. You can use your intuition or judgment to determine whether they are true or not from your perspective, or you can wait for the outcome of scientific testing. In reality, this book sets out a new psychology for both the mind and the self. These sciences and analyses and thoughts can help you in all the major aspects of your life. Why wait?.
