Organization for Economic Co-operation and Development (OECD), France, 2012. Paperback. Book Condition: New. 276 x 210 mm. Language: English . Brand New Book ***** Print on Demand *****.The OECD Green Growth Strategy aims to provide concrete recommendations and measurement tools, including indicators, to support countries efforts to achieve economic growth and development, while ensuring that natural assets continue to provide the resources and environmental services on which well-being relies. The strategy proposes a flexible policy framework that can be tailored to different country circumstances and stages of development. This report was coordinated with the International Energy Agency (IEA). Contents: Chapter 1. Transforming the energy sector to sustain growth; Green growth requires a green engine; Addressing systemic risks and imbalances; World energy outlook; Implications of continuing current trends; Chapter 2. Promoting the transition to green growth; Green growth and energy: What s at stake; Potential trade-offs and adjustment costs; Key technologies for green growth and energy; A policy framework for greening energy; Policies for green growth in specific energy sectors; Chapter 3. Implementing green energy: Reshaping the political economy; Political economy - achieving change in different country contexts; Structural adjustment; Stranded capital; Employment effects; Distributional effects; Chapter 4. Monitoring progress towards green growth; The OECD framework for green growth indicators; Energy related green growth indicators.
